ICD Code(s):

Please circle the appropriate answer for each question.

1	Is the requested drug being prescribed for the relief of muscle spasm or discomfort associated with an acute, painful musculoskeletal condition? [If no, then no further questions.]	Yes	No
2	The American Geriatrics Society identifies the use of this medication as potentially inappropriate in older adults, meaning it is best avoided, prescribed at reduced dosage, or used with caution or carefully monitored. Does the benefit of therapy with this prescribed medication outweigh the potential risks for this patient? [If no, then no further questions.]	Yes	No
3	Is the patient using one or more additional anticholinergic medications (e.g., oxybutynin, meclizine, paroxetine, amitriptyline, dicyclomine, hydroxyzine) with the requested drug? [If no, then no further questions.]	Yes	No
4	Has the prescriber determined that taking multiple anticholinergic medications is medically necessary for the patient? [Note: Use of multiple anticholinergic medications in older adults is associated with an increased risk of cognitive decline.]	Yes	No
